

7 QUESTIONS YOU MUST ASK ANY ERP SOFTWARE FIRM

- 1.** How many successful ERP installations have you performed?
- 2.** Describe your consulting resources. How many full-time consultants do you employ, and are they qualified?
- 3.** What is your guarantee or warranty?
- 4.** What kind of training and support do you offer?
- 5.** Is the software customizable and can it be integrated with my other systems?
- 6.** How does your software support extended enterprises?
- 7.** Have you done similar implementations for organizations in my industry?
