## Why Fisherman's Payroll?

It's a flexible solution to meet the specific needs of the fish processing industry or distributors, using commercial off-the-shelf software solutions enhanced with internal controls and reports. The need to have an integrated fishermen's payroll solution is critical to handle fishermen's payroll and reporting challenges. It accommodates company requirements for accuracy and reporting needs to secure fish landing from fishermen/harvesters, payroll filing are correct, plus accommodate historical past practices.
