## About BAASS

BAASS is a provider and implementer of accounting and business management applications for corporate and community-based organizations across Canada, the U.S.A, and the Caribbean. BAASS is a full-service technology consulting firm with over 30 years of experience in providing quality products, services, and support to clients in a number of industries.

With a complete team of certified IT and e-Business consultants in 23 offices across Canada, the U.S.A, and the Caribbean, BAASS offers a comprehensive line of services from needs assessment, system design & configuration, software training and technical support in accounting, ERP, CRM, e-Business, custom developed and web solutions, specializing in Sage 300, Sage Intacct, Sage CRM and Sage Enterprise Management products.

## About Sage 300

Sage 300 software can help prepare your business for growth. It is a financial and business management solution that helps you manage your financials, inventory, operations, distribution and more. Sage 300 takes the complexity out of managing your business finances across borders, in multiple currencies and locations. It makes it easy to set up and manage multiple companies, close books, and report results by company or consolidated company. You can maintain an unlimited number of currencies and exchange rates, get daily updates, and automate the gains or losses from fluctuations. With Sage 300 you can ship orders on time, from multiple locations while also simplifying your inventory—including shipments, returns, and adjustments—with multi-location inventory tracking. In addition, you can simplify your monthly bank reconciliations, detect unrecorded transactions, errors and differences, and easily correct to reconcile your books with your bank statements.
