

WisePlanner

About

WisePlanner is a very simple application that takes away the manual steps of transferring data from Sage. The application allows you to work in MS Excel™, permitting you to build any formulas tailored to your budgeting needs. WisePlanner requires no training and is user-friendly throughout the entire budgeting process. The application provides a data warehouse that authorizes the creation of reports on budget revisions with your Sage Intelligence**

Features

- The ability to create unlimited templates
- Budget easily in any currency
- Select account and segment ranges with support to multiple cycles
- Control excel sheets based on business rules

Benefits

- \$1,200 for an annual subscription
- Includes 1 database and 1 budget administrator

Experience an array of development tools designed by our very own BAASS team to support your specific business needs. These innovative tools bridge the gap between your organization and its success.
