

Enhance cash flow and save time with an all-in-one solution

Streamline your accounts receivable process

Manage your entire invoicing and payment acceptance process with a single trusted vendor. Our solution makes it easy to process payments that are instantly integrated with your ERP software, Sage 300.

Make on-time payments the norm

Quickly process ACH (EFT in Canada) and credit card payments within your ERP on behalf of customers, or give them convenient self-service payment options.

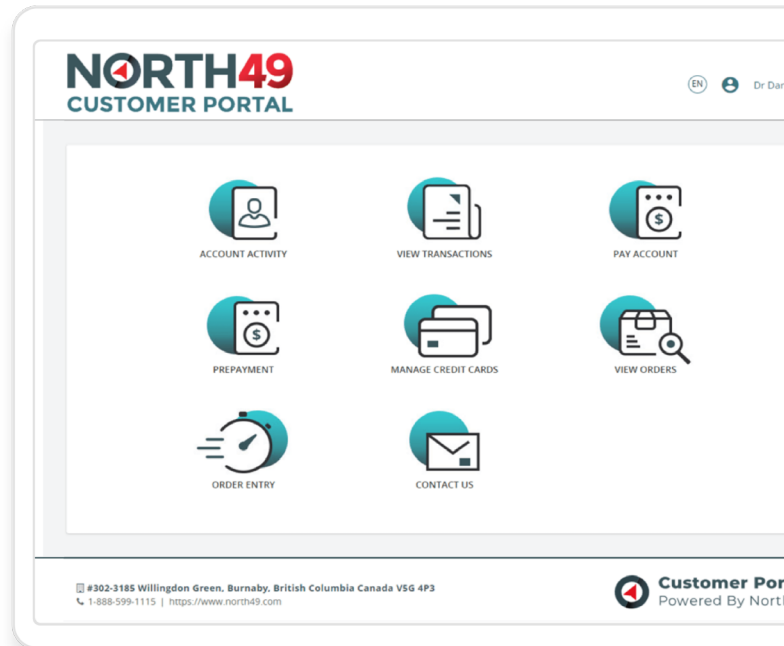

Automate time consuming manual tasks

Free up your team to be productive instead of manually tracking payments, resending invoices or applying payments.

Make informed business decisions

Improve reporting with reliable, up-to-date payment data all in one place — no matter how or when you get paid.

Take payments 24/7 with a convenient customer portal

- Allow customers to pay the way they prefer, including credit/debit cards, ACH, eCheck or EFT in Canada
- Give customers any time access to view outstanding invoices and invoice history
- Send one-time payment links to customers to make a payment

Improve order entry to expedite the sales order process

- Allow customers to submit sales orders online that flow directly into Sage 300
