

# Sage Construction Management Integration for Sage Intacct Construction

Sage Intacct Construction and Sage Construction Management gives you the ability to streamline your construction operations, from preconstruction to project management to finance.

Syncing your data between platforms is as easy as a click of a button. Whether you want to sync job cost codes, estimates, contracts, or other information, you can be sure that your data will be consistent across the two.

Here is an illustration of the data that you can sync.
