

Sage Intacct Construction

Trusted cloud accounting software built on the foundation of over 50 years of construction experience.

Accelerate your business with the only cloud-native solution that pairs decades of construction experience with the largest partner network in the industry.

Sage built Sage Intacct Construction to take the pain and inefficiency out of managing finances. Sage Intacct Construction delivers customizable reporting features, multi-entity consolidation, a dimensional general ledger, comprehensive job costing, automated WIP management, easy-to-use dashboards, and much more.

“Sage Intacct Construction has provided the accounting backbone we needed to build a more connected, efficient system. It’s been phenomenal.”

— Matt Andersen, CFO, Superior Masonry

As the first and only AICPA-preferred accounting solution, it's no surprise that the industry considers Sage the #1 provider of construction finance software — trusted by over 50,000 companies like yours.

- Easily track and measure financial performance with real-time visibility, reporting, and insights accessible anytime, anywhere, and from any device.
- Drive up to 25% increased profit with on-demand job costing, integrated payroll, customizable reports, and automated workflows.
- Get an end-to-end construction solution covering preconstruction, operations, and finances with Sage Construction Management, which is included when you buy Sage Intacct Construction. Plus, select additional solutions from Sage's full portfolio of construction products and maintain the flexibility to integrate with other common construction software.

Sage

Improve efficiency

Automate AP/AR processes. Gain 20-40% in work efficiency.

Streamline month-end close time

Reduce average month end close time by 25-50%.

Empower your finance team

Minimize busy work. Increase time spent on analysis and business strategy by 25-75%.

“Using Sage Intacct Construction and Sage Construction

Management together gives us an end-to-end cloud system that helps us be more efficient across the business, from initial lead through project completion. I've been looking for this for 20 years.”

—Joe Murray, CEO, ACT Construction

Take control of project finances with real-time data

Construction leaders need visibility into financial and operational metrics to make timely, data-driven decisions for budgets, job progress, staffing, subcontractors, and more. With on-demand reporting, you can measure your project's financial and operational performance, and compare outcomes against historical data. Every transaction in the system is tagged with dimensions, so finance teams can sort, view, filter, and report on the specific information they need, whenever they need it.

Thrive with a born-in-the-cloud solution

Say goodbye to the days of on-premises solutions and working off outdated information. As a pioneer in the cloud space, Sage Intacct Construction was built on a true cloud model. Sage delivers multi-tenant financial management, ensuring that all users are always on the same version with access to the most up-to-date information. No complicated and expensive upgrades required — ever.

Simplify operations with a complete construction platform

Sage Intacct Construction is sold with Sage Construction Management, giving you a complete cloud solution covering preconstruction, operations, and finances. The pairing enables collaboration and efficiency by keeping field, office, and external teams working in lockstep. Plus, you can take advantage of Sage's entire suite of solutions — like estimating, bidding, and service operations applications — giving you the option to let Sage handle all your software needs.

Maintain flexibility and the power of choice

While the Sage Intacct Construction platform delivers the most comprehensive solution on the market, Sage knows that software isn't one size fits all. Sage is committed to being an open platform and growing the ecosystem of integrated partner solutions like Procore, Autodesk Navisworks, and others. Sage's priority is to offer the power of choice — the simplicity to choose Sage's all-in-one solution, and the flexibility to select the right mix of integrated products that work for you.

Customizable dashboards provide visibility into critical metrics including job costs, profit margins, revenue, and more.

The largest and most trusted partner network in the industry

Sage gets it – taking the leap to invest in new software can feel overwhelming. Having a partner that understands how you do business is key to ensuring your success. Sage is proud to have built the largest and most experienced partner network in the construction industry, which means you'll have experts by your side during your software transition who have worked with companies just like you.

What makes Sage's partners exceptional is their commitment to going beyond implementation by helping you meet your goals, sharing best practices, and accelerating your growth.

“Sage Intacct Construction streamlines processes so you can actually understand the data and make fact-based decisions, which is the most important aspect.”

—Angelia Ryan, CFO, Airo Mechanical
